## RESEARCH INTERESTS

I am interested in Natural Language Processing and Data Science. I believe that with the help of NLP technology, we can discover the potential features behind social data(Tittwer, stocks, etc.) and assist people with some intelligent activities better in the future. My current focuses include:

- NLP-related topics, such as text classification, summarization and recommendation.
- Deep learning models or methods for better language understanding.
- Big data analysis in practical social data and time-series data.

## EDUCATION

**Beijing University of Posts and Telecommunications** Beijing, China  
Master of Engineering in Computer Science & Information Security Sept 2017 – Jun 2020  
Advisor: Associate Prof. Yang Wenchuan

**Beijing University of Posts and Telecommunications** Beijing, China  
Bachelor of Engineering in Computer Science & Information Security Sept 2013 – Jun 2017  
Advisor: Prof. Liu Liang

## PUBLICATIONS

1. W. Yang, R. Hua, and Q. Zhao, "Sequence Generative Adversarial Network for Chinese Social Media Text Summarization," in *2019 Chinese Automation Congress (CAC)*, ISSN: 2688-092X, Nov. 2019, pp. 4620–4625.
2. W. Yang, Q. Zhao, and R. Hua, "Design and Implementation of Application Classification Based on Deep Learning," in *2019 Chinese Automation Congress (CAC)*, ISSN: 2688-092X, Nov. 2019, pp. 4821–4826.
3. W. Yang, Q. Zhao, and R. Hua, "A Method for Massive Scientific Literature Clustering Based on Hadoop," in *2019 Chinese Automation Congress (CAC)*, ISSN: 2688-092X, Nov. 2019, pp. 5518–5523.
4. Q. Zhao, W. Yang, and R. Hua, "Design and Research of Composite Web Page Classification Network Based on Deep Learning," in *2019 IEEE 31st International Conference on Tools with Artificial Intelligence (ICTAI)*, ISSN: 1082-3409, Nov. 2019, pp. 1531–1535.
5. Q. Zhao and W. Yang, "Multi-label classification of technical articles based on deep neural network," in *2019 Chinese Control Conference (CCC)*, ISSN: 1934-1768, Jul. 2019, pp. 8391–8397.

## RESEARCH EXPERIENCE

**Undergraduation Thesis** Beijing, China  
Design and Implementation of Chaotic Compressive Sensing Algorithm Mar 2017  
Advisor: Prof. Peng Haipeng  
The thesis won the 2017 outstanding undergraduate thesis award. (2/89 in school)

**Graduation Thesis** Beijing, China  
Discovery and Research of Frequent Item in Interdiscipline Based on Deep Learning Mar 2020  
Advisor: Associate Prof. Yang Wenchuan

**Chinese Internet Text View Extraction Management Software** Beijing, China  
**Project member** Aug 2017 – Nov 2017  
• Designing a software to help the government quickly know appeals from the public.

**Subject Domain Extraction and Classification Model** Beijing, China  
**Project member** Aug 2017 – Dec 2017  
• Aiming at the problem that the growing Chinese scientific and technological literature cannot be classified automatically.

**Research and Design of New Knowledge Discovery System** Beijing, China
