RESEARCH INTERESTS

I am interested in Natural Language Processing and Data Science. I believe that with the help of NLP technology, we can discover the potential features behind social data(Twitter, stocks, etc.) and assist people with some intelligent activities better in the future. My current focuses include:

- NLP-related topics, such as text classification, summarization and recommendation.
- Deep learning models or methods for better language understanding.
- Big data analysis in practical social data and time-series data.

EDUCATION

Beijing University of Posts and Telecommunications Beijing, China
Master of Engineering in Computer Science & Information Security Sept 2017 – Jun 2020
Advisor: Associate Prof. Yang Wenchuan

Beijing University of Posts and Telecommunications Beijing, China
Bachelor of Engineering in Computer Science & Information Security Sept 2013 – Jun 2017
Advisor: Prof. Liu Liang

RESEARCH EXPERIENCE

Undergraduation Thesis Beijing, China
Design and Implementation of Chaotic Compressive Sensing Algorithm Mar 2017
Advisor: Prof. Peng Haipeng
The thesis won the 2017 outstanding undergraduate thesis award. (2/89 in school)

Graduation Thesis Beijing, China
Discovery and Research of Frequent Item in Interdiscipline Based on Deep Learning Mar 2020
Advisor: Associate Prof. Yang Wenchuan

Chinese Internet Text View Extraction Management Software Beijing, China
Project member Aug 2017 – Nov 2017
• Designing a software to help the government quickly know appeals from the public.

Subject Domain Extraction and Classification Model Beijing, China
Project member Aug 2017 – Dec 2017
• Aiming at the problem that the growing Chinese scientific and technological literature cannot be classified automatically.

Research and Design of New Knowledge Discovery System Beijing, China
Project manager Dec 2017 – Aug 2018

- The subject intends to find a new cross-disciplinary law by using text multi-label from the growing scientific literature.

Frontier Scientific Literature Scoring and Recommendation System Beijing, China
Project manager Jun 2018 – Dec 2018

- The project aims to solve the problem that literature viewers can't find the most suitable and high-quality article quickly.

Subject Domain Knowledge Composition and Prediction System Beijing, China
Project member Sept 2019 – present

- It improves the New Knowledge Discovery System and shows key documents in the development process by statistical method.

INTERNSHIP **Ye Peida Institute, Beijing University of Posts and Telecommunications** Beijing, China
Project member Mar 2014 – Jun 2017

China Information Security Evaluation Center Beijing, China
Data analyst Jan 2017 – Oct 2017

Beijing Yunhe Space Time Technology Co., Ltd Beijing, China
Algorithm intern Oct 2018 – Apr 2019

Beijing Institute of Science and Technology Information Beijing, China
Project member Jan 2018 – Apr 2019

- AWARDS**
- The Second Prize of the China Undergraduate Mathematical Contest in Modeling. National level. 2015
 - Triple-A Student of Beijing University of Posts and Telecommunications. School level. 2014 – 2018
 - Graduation Thesis Award for Outstanding Undergraduates. School level. 2017
 - First and Second Class Scholarship. School level. 2014 – 2019
 - IFLYTEK big data, Competition Shortlisted Award(4/960). National level. 2019
 - KAGGLE big data, Jigsaw Unintended Bias in Toxicity Classification top9(281th, Bronze). International level. 2019

SKILLS

Programming C, Java, Python, Matlab, Mathematics, \LaTeX , Javascript

Tools Git, Adobe Illustrator, Prezi

Languages Chinese, English, Japanese
